

CO4-AT2-Laboratory Performance

1.Student Record

The screenshot shows the SIMATS Online Programming Lab interface. The header includes the SIMATS Engineering logo, the lab name, and the user's name 'MONESH S. 19232402764'. The main content area is titled 'CO4-AT2-Laboratory Performance'. On the left, a 'QUESTIONS' sidebar lists four questions: Q1 (Student Record, 25 marks), Q2 (Menu Driven, 1 mark), Q3 (GUI using AWT, 25 marks), and Q4 (A Simple Applet, 25 marks). The 'Student Record' question is selected and displayed in the main area. It asks for a GUI application to maintain a student record with add/update/delete/display functionality. Below the question, there is an 'UPLOAD PDF FILES' section with two slots: 'File 1' (with a file named '19232402764_q1ttttt_rnk_at2_laboratory_performance_1.pdf') and 'File 2 (optional)' (with 'No file chosen'). A 'Save Submission' button is at the bottom.

QUESTIONS

- Q1 Student Record (25 marks)
- Q2 Menu Driven (1 mark)
- Q3 GUI using AWT (25 marks)
- Q4 A Simple Applet (25 marks)

4/4 answered

Q1 Student Record (25 marks)

Design a GUI application that allows the user to maintain a simple student record (add/update/delete/display) using appropriate layout manager, controls, and event handling.

UPLOAD PDF FILES * (MAX 2 FILES - 10 MB EACH)

File 1: 19232402764_q1ttttt_rnk_at2_laboratory_performance_1.pdf

File 2 (optional): No file chosen

Save Submission

2.Menu Driven

The screenshot shows the same SIMATS Online Programming Lab interface, but the 'Menu Driven' question is now selected and displayed in the main area. It asks for a menu-driven Swing application for a simple calculator with Add, Subtract, Multiply, Divide, Clear, and Exit functions. The 'UPLOAD PDF FILES' section remains the same as in the previous screenshot. The 'Save Submission' button is highlighted with a yellow box.

QUESTIONS

- Q1 Student Record (25 marks)
- Q2 Menu Driven (1 mark)
- Q3 GUI using AWT (25 marks)
- Q4 A Simple Applet (25 marks)

4/4 answered

Q2 menu driven (1 mark)

Create a menu-driven Swing application for a simple calculator (Add, Subtract, Multiply, Divide, Clear, Exit) using Menubar, Menu, and MenuItem.

UPLOAD PDF FILES * (MAX 2 FILES - 10 MB EACH)

File 1: 19232402764_q1ttttt_rnk_at2_laboratory_performance_1.pdf

File 2 (optional): No file chosen

Save Submission

3.GUI using AWT

The screenshot shows the SIMATS Online Programming Lab interface. The header includes the SIMATS Engineering logo, the lab name, and the user's name (MONESH S. WISUWOTTEA). The main content area is titled "CO4-AT2-Laboratory Performance" and contains a question titled "GUI using AWT" worth 25 marks. The question text is: "Create a GUI using AWT controls (Button, Label, TextField, Checkbox, Choice). Perform simple operations such as registration form input and display the entered data." Below the question, there is a section for uploading PDF files, with two slots: "File 1" (which has a file named "15C04KOTPA.qTTF22Ln4.at2 laboratory performance.1.pdf" uploaded) and "File 2 (optional)" (which is empty). A "Save Submission" button is at the bottom. On the left, a sidebar shows a list of questions: Q1 (Answered, 25 marks), Q2 (Empty choice, 1 mark), Q3 (GUI using AWT, 25 marks), and Q4 (a simple Applet, 25 marks). The status "4/4 answered" is shown at the bottom of the sidebar.

4.A Simple Applet

The screenshot shows the SIMATS Online Programming Lab interface, similar to the previous one. The header and user information are the same. The main content area is titled "CO4-AT2-Laboratory Performance" and contains a question titled "a simple Applet" worth 25 marks. The question text is: "Develop a simple Applet that displays your name, roll number, and course in different colors and fonts. Use the paint() method for rendering." Below the question, there is a section for uploading PDF files, with two slots: "File 1" (which has a file named "15C04KOTPA.qTTF22Ln4.at2 laboratory performance.1.pdf" uploaded) and "File 2 (optional)" (which is empty). A "Save Submission" button is at the bottom. On the left, a sidebar shows a list of questions: Q1 (Answered, 25 marks), Q2 (Empty choice, 1 mark), Q3 (GUI using AWT, 25 marks), and Q4 (a simple Applet, 25 marks). The status "4/4 answered" is shown at the bottom of the sidebar.
